

## NEW! Triage Workshop

Advance your knowledge of triage with an engaging and practical workshop where you'll learn the skills needed to make efficient and effective decisions even in high-pressure situations. Develop the fundamental concepts behind triage and revolutionize the way you work and make decisions!

**Triage Workshop participants saw an increase of 24.5% between their pre-test to post-test scores.**

### Customer Spotlight:

“ There will definitely be a change for me and how I triage and assign ESI's. This was a very informative and eye-opening course. It has really changed the way I approach triage. ”

— ENA Triage  
Workshop Participant

### Key Features:

- Instructor-led discussions
- Hands-on learning with real-life scenarios
- Immediate application of skills
- Increased confidence in critical decision-making

The Triage Workshop helps learners develop the ability to make informed decisions rapidly, ensuring that you can respond effectively to any situation.

**3% of Triage Workshop participants scored higher when given in-person instruction versus virtual.**

Additional didactic information		x

### Customer Spotlight:

“ The Triage Workshop helped me as a new ED nurse to obtain clarification from observed common practices and intended algorithms. Knowing the value behind how. Why we triage using the ESI helps me see the bigger picture and the potential trajectory of my patients. **This content should be a requirement before any new nurse is thrown out into the front as T1. ”**

— Kevin P., ENA Triage Workshop Participant

### Customer Spotlight:

“ The pre-course modules Triage Workshop were very effective in introducing triage and ESI Levels to the new nurses or nurses who are preparing to transition to a triage role in the emergency department. The course materials provided excellent theoretical support while the in-person **Triage Workshop allowed for comprehensive understanding of the materials and meaningful discussion on clinical application.**”

— Jhoanna G., Emergency Department Leader
