ACADEMY *of*
EMERGENCY NURSING

The Academy of Emergency Nursing™ (AEN®) was established in 2004 to honor nurses who have made an enduring and substantial contribution to the emergency nursing specialty. Academy Fellows have played an important role in emergency nursing practice, education, research, leadership, and public policy. To date, more than 200 outstanding emergency nurses have been recognized for their contributions by being named a Fellow in the Academy of Emergency Nursing. Each year, the Academy looks for those nurses who will continue to impact the growth and success of ENA.

MISSION:

The mission of the Academy of Emergency Nursing is to recognize and promote significant sustained excellence in emergency nursing in collaboration with the Emergency Nurses Association.

VISION:

The Academy of Emergency Nursing is a dynamic collaborative partnership fostering excellence, advocacy and research in emergency nursing and promoting the development of nursing leaders.

“Induction as a Fellow to the Academy of Emergency Nursing is one of the highest honors of my emergency nursing career. It is an acknowledgement of the contributions I have made to the specialty I love, emergency nursing.”

Thelma Kuska

“Excellence in nursing is demonstrated by a full range of accomplishments that can include, but extend well beyond service to ENA. Elements of clinical practice, education, research, leadership, service and communications are considered towards the completion of an individual profile that will be expected to contribute to an enduring mission. Fellowship in the Academy of Emergency Nursing reflects a deep commitment to the profession and the communities we serve. A successful application should be considered a milestone, not an endpoint in one’s career.”
